

WEATHER For Kentucky
Colder Tuesday

HOPKINSVILLE KENTUCKY, TUESDAY, FEBRUARY 27, 1917.

VOL. 39-No. 25

EDITORIAL COMMENT.

No Compromise

The conference in Washington by the Federal Trade Commission last week with manufacturers and publishers on the news-print situation, was not finished and will be continued this week. The manufacturers who arbitrarily increased the price of proper 200 per cent, frightened by the prospect of indictments under the anti-trust law, have offered to let the Trade Commission fix a maximum price for six months from March 1, hoping thereby to stop prosecutions. Nearly 50 per cent of the manufacturers have signed this proposal. Saturday the publishers' organization protested against temporarily adjustment for six months only but are demanding permanent relief. This they say can best be secured by continuing the prosecutions and punishing those guilty of the crime of extorting \$30,000,000 from the publishers in the last ten months. The Federal Trade Commission appears to favor the compromise agreement, though it does not promise immunity to those who have violated the law. The real remedy though lies with the Department of Justice, and newspaper men can afford to wait awhile if the trust leaders can be sent to prison and free competition restored in the paper market. Until this result can be attained, the publishing business will be at the mercy of a gang of robbers and necessarily upon a very uncertain basis.

All Holland is stirred up over the torpedoing of seven Dutch steamers in a flotilla near Falmouth. Four were sunk and three reached port. Holland says German consent was given to sail and Germany says it was with the risk of being attacked by submarines not communicated with.

Maj. Gen. J. J. Pershing has assumed command of the army on the border. A religious service was held the first day, it being a memorial service for his predecessor, Gen. Funston, who objected to a revival meeting being held among his soldiers last year.

With food riots keeping the New York police busy, many carloads of Irish potatoes—the poor man's staple—are lined up awaiting export, with a prospect of never reaching their destination.

"Clarksville's Claims Command Consideration," was selected as the slogan of our Tennessee neighbor. With that alliteration she ought to be able to C's an opportunity.

The Cunard liner *Laconia*, which sailed from New York Feb. 18, with 27 Americans on board, was sunk yesterday off Queenstown. There were 270 survivors.

Hogs sold Saturday for \$12.85, at Louisville, making another high record. The top price was \$12.90 at Kansas City and \$12.95 at Chicago.

Germany has notified Brazil that she will not abandon her blockade, but will refer Brazilian losses to diplomatic negotiations.

Oliver S. Townsend, city editor of the *Henderson Gleaner*, has gone to Madisonville to take charge of the *Madisonville Messenger*.

The American preacher who lost his life when the *Athos* was sunk, was riding on a troop ship of a belligerent nation.

The Third Regiment is scheduled to start home March 2, but may be unable to get cars at that time.

The filibuster in the Senate has ended in an agreement to vote on the revenue bill tomorrow.

Louisville Democrats are practically united on Sheriff Chas. J. Cronan for mayor.

The British have captured the Turkish stronghold, Kut-el-Amara.

Potatoes retailed at 3½ cents each in Chicago last week.

WIDE POWER FOR WILSON

Fall Introduces Resolution Authorizing Use of Armed Forces.

SURPRISE TO DEMOCRATS

Bill Would Give Complete Authority to Protect Lives and Property.

Washington, Feb. 26.—A resolution authorizing the President to use armed forces of the United States to protect commerce, property and lives of the citizens of the United States was introduced Saturday in the Senate by Senator Fall, Republican.

Senator Fall's resolution was offered by unanimous consent after a bitter two-hour debate, on the international situation, in which Republicans disclaimed any desire to withhold support from the President in handling the situation.

Senator Fall asked that the bill go to the Foreign Relations Committee, and Chairman Stone consented after he had objected to the way in which the measure had been introduced.

POINTS TO DEPREDATIONS.

"I greatly regret that such a bill as this has been introduced at this time," said Senator Stone. "Nevertheless I see no way of disposing of it except by letting it go to the committee."

The bill would give the President wide authority to protect lives and property of Americans or to authorize American merchant ships to protect themselves against searchers and seizures or capture.

Senator Fall's resolution points to the depredations on the commerce of the United States by submarines of the Central Powers, and authorizes the President to "insist and direct the commanders of the armed vessels belonging to the United States" to protect American ships and property and "to take, seize, or bring into port or destroy," if unable to seize, any armed vessels of either of the Central Powers, and particularly of the Imperial German Government which have committed or are threatening to commit depredations against ships conveying Americans or American property."

It would make it legal also for the commander and crew of any merchant American vessel to "oppose and defend against any search, restraint, seizure or attack, which shall be attempted on such vessel" by any armed ship of the Central Powers and to "repel by force any assault or hostility" so committed and to "subdue and capture or destroy" such vessel.

CALL FOR MEN PROVIDED.

On the army side the President would be authorized "in the event of a declaration of war against the United States or of invasion or of imminent danger of invasion" discovered in his opinion to exist" before the next session of Congress to call into service in addition to regular army and the National Guard 500,000 men to serve not more than three years or during the continuance of the "existing differences" with the Central Powers. The President also would be given authority to accept volunteers and to organize the 500,000 men called into the proper service branches and to officer them when the Senate is not in session by his commission alone.

The resolution says that when Germany and her allies "shall disavow" and cause their commanders "to refrain from the lawless depredations and outrages hitherto encouraged and authorized" and shall cause "the laws of nations to be observed," then the commanders of merchant ships may be directed "to submit to any regular search" by Central Power war vessels and to refrain from "any force or capture."

The act would continue in force for six months "and until the end of the next session of Congress thereafter."

The act would continue in force for six months "and until the end of the next session of Congress thereafter."

JOHN J. IS PRESIDENT

New Officers Chosen For The Pennyroyal Fair Company.

FAIR BEGINS AUGUST 28

And Will Continue Five Days Until September the First.

JOHN J. METCALFE.

The directors of the Pennyroyal Fair met yesterday and elected officers and fixed the dates for the next fair. John J. Metcalfe was elected president, Holland Garnett, vice president, Lee Ellis, treasurer, and John W. Richards, secretary.

The fair will begin Aug. 28 and continue five days until Sept. 1.

SLIDE WRECKS MINING CAMP

Big Avalanche Demolishes Buildings and Crushes Sleeping Miners.

NINE BODIES RECOVERED

Six Other Workmen Missing and Probably Dead—Fifteen Injured.

Boise, Idaho, Feb. 26.—An avalanche swept down on the buildings of the North Star mine, twelve miles northwest of Hailey, Idaho, early Sunday, demolishing the compressor house, warehouse and bunkhouse, smothering and crushing the men in the snow and debris.

The bodies of nine miners had been recovered Saturday night; six were missing and probably dead, and fifteen were injured, some seriously.

Among the injured is Thomas Jay, mine superintendent.

MILLION DOLLAR FIRE DAMAGE

Blaze at Louisville Destroyed Grain Elevators and 75 Freight Cars.

Louisville, Ky., Feb. 25.—Damages aggregating more than \$1,000,000 were caused by a fire which tonight destroyed the elevators here of the Kentucky Public Elevator Company and which destroyed or damaged seventy-five freight cars standing on storage tracks belonging to the Illinois Central railroad.

Approximately 500,000 bushels of wheat, rye and oats stored in the elevators were destroyed.

Of the railroad cars destroyed, a few were empty while the remainder were loaded with merchandise and lumber.

The act would continue in force for six months "and until the end of the next session of Congress thereafter."

Admiral Dewey left an estate of \$255,000.

GRAND JURY NOW READY

And Circuit Court Will Get Down to Business Today.

PETIT JURORS FIGHT SHY

As The Busy Season For Farm Work Is Coming on.

Circuit Court met yesterday morning for the spring term of six weeks with Judge C. H. Bush on the bench.

Considerable difficulty was met with in making up the juries. The grand jury was empaneled in the forenoon and the court gave the usual charge, devoting much attention to the question of being improperly influenced. He impressed the jurors with the importance of reporting to him any attempts made to influence them on matters before them. He told them to notify him if any one approached them on any question submitted to them.

The jury is as follows:

C. H. Cayce, foreman; Ben Weaver, J. P. Moss, J. T. Steger, J. F. Denny, J. H. Murphy, Jno. T. East, C. W. Lyle, Geo. Bryant, J. D. Torian, W. B. Belote, W. L. Buie.

Only 16 of the 36 petit jurors summoned responded and were empaneled and it was necessary to draw out 18 more names to complete the panel of 24.

These were summoned as fast as found for the afternoon session. The court will get down to business today, with commonwealth cases coming first, one case being that of Canada Young charged with wilful murder.

ALLEGED PREACHER

Charged With Attacking A Little Girl is Sent to Madisonville Jail.

CLAXTON DENIES GUILT

But Rescuers Attracted By The Child's Screams Turn Him Over to Police.

J. A. Claxton, of Cedar Hill, Tenn., was arrested Friday night on a charge of attempting to assault Estell Owen, an 8-year-old child. The little girl, a daughter of James Owen, a railroad employee, says that during the absence of her mother, Claxton, who is said to be a preacher and prohibition worker, persuaded her to accompany him some distance from home to a point on the river bank. Her screams were heard by W. L. Carroll and John Jones. They went to the rescue and turned Claxton over to the police. Claxton insists that he was playing with the child, and intended no harm. The girl's father said Claxton was an acquaintance of the family and they had known him when residing in Springfield, Tenn.

When Claxton was taken in charge by the two men, officer Anderson went to the scene near the railroad bridge and brought him to the lockup. Night Lieut. Hawkins took him to Madisonville.

The Owens moved here from Springfield, last fall. The little girl's story is that Claxton caught her by the hand and made her go with him several hundred yards to the river bank and at a secluded point he forced her down on the ground, when her screams led to her rescue before any harm was done her.

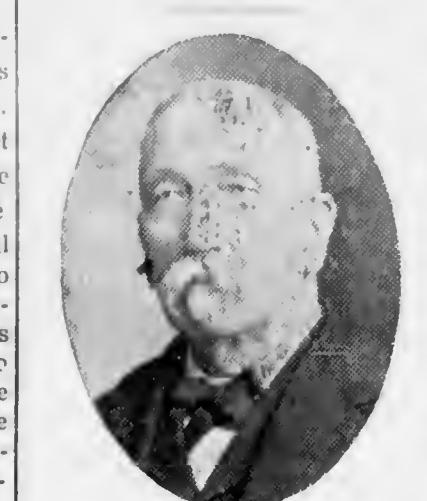

Wm. White, Lyon county's oldest man, died last week, aged 94.

HOPKINSVILLE'S OLDEST MAN

Falls Asleep In the Ninety-fifth Year of His Age.

E. L. FOULKS DIED SUNDAY

Funeral Services The Last to Be Held In the Old Methodist Church.

E. L. FOULKS.

Hopkinsville's oldest man, the venerable Mr. E. L. Fouls, who had been confined to his bed since last November, passed peacefully away at 7 o'clock Sunday morning, aged 94 years, one month and 13 days.

He was the oldest member of the Methodist church and his death occurred on the last Sunday that services were held in the old church, of which he had been a member for more than 50 years. His funeral services yesterday afternoon were probably the last services to be held in the building, as the new church will be occupied next Sunday.

Ezra Lewis Fouls was born Jan. 12, 1823, at Belleville, Ill., and came to Logan county prior to 1850 and later to Salubia, near Pembroke, where he operated a small photograph gallery, taking daguerreotype pictures, for eight years. He came to Hopkinsville in 1858 and ran a photograph gallery here during the civil war period. He took many pictures of noted men on both sides, keeping pace with the improvements in photography. When the courthouse was burned in 1864 by Gen. H. B. Lyon, Mr. Fouls took a picture of the ruins that is still in existence. Hundreds of pictures taken by him, of that period, are still treasured in albums all over the county.

When the first railroad reached Hopkinsville, Mr. Fouls changed his business and became a coal dealer, opening an office in 1869. He continued the business uninterrupted as long as he lived. It is still conducted by his grandson, S. L. Pence. For many years he filled the office of deputy sheriff, the only office he ever held.

He was a lifelong member of the Methodist church, always a leader in its affairs.

The funeral services were conducted by Dr. Lewis Powell, assisted by Rev. Virgil Elgin, and the interment was in Riverside Cemetery.

Mr. Fouls is survived by a son, Ernest Fouls, of Arizona, and a daughter, Mrs. W. H. Pence, with whom he lived.

At the end of a long and well spent life, he was bid to rest. He will live in the hearts of many friends and in the memory of all the people of Hopkinsville as one of the city's best men, a Christian who practiced Christianity in his daily life and merited the confidence and respect of all who knew him.

Weather for the Week.

Washington, Feb. 26.—Weather predictions for the week beginning Sunday, announced by the weather Bureau follow:

Ohio Valley—Probably fair, except rain is probable Monday and Tuesday and again about Friday. Moderate temperature followed by considerably colder about Wednesday and warmer latter part of the week.

BRITISH ENTER GERMAN LINES

Trenches on 500 Yard Front Are Occupied East of Vierstraat, Belgium.

PREPARING FOR BIG PUSH

Germans Got Three More Steamers Sunday In U-Boat Campaign.

The British troops in the Arras region of France are reported by the London war office to have taken additional ground from the Germans, including the village of Serre and several important points farther east. In these operations, although they were carried on over a wide front, only small bodies of troops were engaged and only slight opposition was met, but they are indicative of the plan of the British to continue their steady gains in preparation for the more extensive movement in the spring.

Another raid was carried out by the British east of Vierstraat, Belgium. Here on a front of 500 yards the British entered German trenches, inflicted casualties on the occupants, destroyed dugouts and other works and took 55 prisoners.

The Germans near Ypres invaded British trenches under cover of a heavy bombardment, but later were ejected. Bombardments continue on the remainder of the front held by the French.

Isolated battles have taken place on the eastern front from northwestern Russia to the Carpathians, but neither of the belligerents have gained any advantage.

In the Austro-Italian theater the Austrians essayed infantry attacks at several points but everywhere were repulsed, according to Rome. Artillery duels continue along this front. A belated British communication dealing with the fighting along the Tigris river, shows that in addition to having occupied Turkish trenches over a front of nearly 2000 yards in the Samuayat region last week, the British troops were also able to cross to the left bank of the Tigris, west of Kut-el-Amara.

German submarines sank three small British steamers Sunday.

BASKET BALL TOURNAMENT

Local High School Will Go After Big Game In Danville.

With the basketball teams of the leading high schools of Kentucky closely bunched in the interscholastic tournament to be held next Friday and Saturday at Danville under the auspices of Center College looms up in enhanced importance, as the tournament games will be the only medium through which the State title can be definitely decided.

Lexington, Owensboro and Hopkinsville will be the leading contenders, no doubt, for the championship in the series at "Old Centre." Lexington has not been defeated this year, and has taken the Louisville high school squad into camp twice. Hopkinsville, while no other "Big Eight" teams have been met, has shown excellent form, winning all of its schedule. The Orange and Black is certain to give both Lexington and Owensboro lots of trouble.

The tournament will begin today afternoon with two games, followed by two more in the evening. The winners of these matches will pair up for the semi-final clashes Saturday afternoon, while the two survivors will meet for the championship Saturday night. A consolation series for the losing teams will be conducted Saturday morning.

South Dakota becomes bone dry
July 1st.

Vermont Legislature defeated
woman suffrage bill.

The New Hampshire House passed
a woman suffrage bill and the Senate
defeated a similar measure.

Morphine has gone up in price until
the drug is now quoted at 6 cents
a grain, or \$302.64 a pound.

An extra session of the Senate will
be called March 5 to swear in the new
men and confirm nominations.

Rev. John Hargan, a Methodist
minister who had married 1200 couples,
died at Vine Grove, Ky., Feb. 23,
aged 92.

New Harrodsburg, a horse hitched
to Walter Sims' buggy, became
frightened at an automobile and
backed over a cliff. Sims jumped
out, but the horse was killed.

After being under a city manager
for two years, Charleston, W. Va.,
will return to the old form of govern-
ment with the manager's power
re-entrusted to a mayor. The Char-
leston charter bill was so amended
by the state senate and the house
of representatives.

Representative Kincheloe has re-
ommended State Senator J. Forest
Porter for appointment as postmaster
of Dixon, Ky., with an understand-
ing that the appointment will become
effective on June 30. He will suc-
ceed A. L. Hall, who was appointed
with the understanding that he would
retire when Senator Porter was in
position to take the office. Postmas-
ter Hall's resignation has been re-
ceived.

W. H. Wiers, engineer and rate
adjustment expert, is now operating
in Clarksville and has submitted to
Mayor Marable the following sched-
ule of electric light rates: For the
first K. W. monthly use, 10c per
K. W.; for the next 75 K. W., 8c per
K. W.; for the next 100, 7c per K. W.;
for the next 100, 6c per K. W.; for
all in excess of 300 K. W., 3 1/2c
per K. W.; minimum monthly meter
charge, 75c; gas, 1,000 cubic feet,
\$1.25. Net, payable on or before the
tenth of the month.

A huge chip from one of the most
historic trees of the State has just
been taken to Lexington and is in
care of Mrs. W. H. Thompson. The
slab was cut from a beech tree in
Letcher county and bears the initials
of Daniel Boone, with the date 1781.
The hoary relic will be mounted, put
into a glass case and sent to Wash-
ington to be permanently on display
in the Kentucky room of Continental
Hall as the gift of the Bryan Station
Chapter, Daughters of the American
Revolution. The hand on which the
tree stands belongs to W. H. Potter,
of Kona, Ky., and permission to re-
move the big chip was secured by
Mrs. R. L. Pilling, historian of the
Bryan Station chapter, acting as a
committee of one. Mr. L. H. L. com-
panied her to Letcher county and
they personally saw to the removal of
the slab and its transportation to Lex-
ington.

Glass Eye Was Misbehaving.

"Mrs. Murphy, have you seen my
glass eye?" "Yes, sir; it was readin'
one of your letters, and I hid it in the
bureau."—*Tempon*.

Pains All Over.

Houston, Tex.—"For five years,"
says Mrs. L. Fulencher, of this
place, "I suffered with pains all
over, especially in my back and side,
and was so weak I could hardly do
my house work. A friend told me
of Cardui. Since taking it, I feel
so much better! Now I can do all
my housework and pains don't bother
me any more at all." Cardui is a
strength-building medicine. Fifty
years of success have produced,
amongst its many users, confidence
in Cardui and what it will do.
During this time, Cardui has relieved
the female ailments of over 50,000
women. Why not yours? Try it,
today. Your druggist sells it.—Ad-
vertisement.

Father of Phrenology.

The first announcement made by
Frank Joseph Gall regarding his sys-
tem of phrenology was in an address
delivered before his medical colleagues
in Vienna a century and a quarter ago.
Gall was a native of Baden, but set
in Vienna in 1781 and began the
practice of medicine in the Austrian
capital. From his boyhood he had
been interested in studying the
anatomies of his compatriots, and many
observations and much study con-
vinced him that the talents and dis-
positions of men may be inferred with
perfect exactitude and precision from
the external appearance of the skull.
This theory he elaborated in many lectures,
pamphlets and books, and soon
gained many adherents in the scientific
world.

Constipation Causes Bad Skin.

A dull and pimply skin is due to a
sluggish bowel movement. Correct
this condition and clear your com-
plexion with Dr. King's New Life
Pills. This mild laxative taken at
bedtime will assure you a full, free,
non-gripping movement in the morning.
Drive out the dull, listless feeling
resulting from overloaded intestines
and sluggish liver. Get a bottle
to-day. At all Druggists, 25c.—

The Corporal's Watch.

A corporal in the Life Guards of
Frederick the Great, courageous but
full of vanity, was too poor to pur-
chase a watch; so he hung a bullet on
the end of a chain. The king, knowing
his foolish and inclined to rally him,
one day said:

"Corporal, it is six o'clock by my
watch; what time is it by yours?"

"Sir," said the man, drawing the
bullet from his fob, "my watch marks
neither five nor six o'clock; but tells
me every moment that it is my duty to
die for your majesty."

The king was much affected. "Here,
my man," said he, "take this watch of
mine, that you may be able to tell the
hour also."

A healthy man is a King in his own
right; an unhealthy man an unhappy
slave. For impure blood and slug-
gish liver, use Burdock Blood Bitters.
On the market 35 years. \$1.00 a bot-
tle.—Advertisement.

Mystery of Chimney Swift.

The chimney swift furnishes one of
the unsolved problems of bird life. The
flocks drift slowly south until on the
northern coast of the Gulf of Mexico
they become an innumerable host.
Then they disappear and for five
months their hiding place is a mys-
tery.

Children Cry
FOR FLETCHER'S
CASTORIA

The philistine's lack of man-
hood and lack of trade; but
the historian's lack of trade was
the spirit of the age; that trade plant-
ed Ameircan slavery; destroyed feudalism;
it makes peace and keeps peace
and will abolish slavery.—Emerson.

Erskine's Case

By MARY PARRISH

(Copyright, by W. G. Chapman.)

him on the phone, and tell him I have
suddenly been called out of town on
business about the case, and that I will
wire or write him. If he asks who
you are—"

"I'll tell him I'm a typist who has
been doing some work for you."

"Good!" smiled Erskine. "What a
splendid little trick we are!"

Edna did as she had agreed, not for-
getting also to account for his absence
at the hotel by the "out-of-town" story
so that they could answer any in-
quiries, and Erskine's name, by his
own forest had been kept out of the
newspapers.

The third day after the accident, Ed-
na found her patient flushed with fe-
ver, and much worse instead of better.
She did not allow him to see her
alarm, but sought an interview with
the nurse.

"He has worried himself into this
fever about some business," said the
nurse. "I wish you could find out, and
suggest something. There's got to be
a slight operation on that leg, and we
don't dare to undertake it with him in
this nervous condition."

The very word "operation" struck a
chill to the girl's heart, but the life in
the other room was to her so dear,
she nerve herself to do anything to
save it.

"I know the case so well," she said
to him as she sat down by his cot.
"Just let me go on with it. I'll mail
letters from all kinds of places from
you to Mr. Carr. I have friends who
will see to that. Lucky your right
hand is all right so you can sign them.
I'll go on with the hunt for that wit-
ness, and I'll come here, report pro-
gress to you, and get your advice. Now
don't worry the least bit. That case is
no good as won."

The next morning Edna heard in an-
swer to her telephone inquiry that the
patient was much improved. By her
request he was moved to a pleasant
room and every day she consulted with
him as to the work done. After about
five days, she found that Mr. Carr
was growing restive. There was nothing
for it, but she must face the ogre.
She introduced herself as Miss Town,
the typist, and presented a parcel of
new papers, which she said Mr. Erskine
had sent her in handwriting, re-
questing her to type and take them to
Mr. Carr.

"Strange!" he mused, "he stays
away like this. But the next moment
he became so engrossed in the papers,
he said no more.

It soon became a common occurrence
for the girl to visit the office with a
new batch of papers. One morning to her dismay, Mr. Carr asked
her to type a letter to Erskine to get
back as soon as possible as the case
was liable to come up within a week.
It seemed to him now so well prepared,
he had agreed to the time.

"Erskine has done some good work
on this," he chuckled. "Now it's up to
him to make as good a figure before a
jury."

Edna feared to tell the young man
of the early docketing of the case. The
operation had been successful, but he
had not yet been allowed to stand on
the injured leg. But her reports of
Carr's confidence smoothed the way,
and he declared he would get there.

Two days before the time he limped
with a cane into the office. Then he
had to explain that he had met with
an accident, and had not wanted to
worry him so had gone on with the
work till he was well enough to ap-
pear without bandages.

Erskine won the case. As it in-
volved several millions, it made a sensa-
tion in the papers. The next day
Carr offered him the long-desired
partnership. Erskine's heart gave a great
leap, and he put his hand late that of
other man, not being quite able to
speak. Then he pulled himself to-
gether, and said: "I've got to tell
you—I'd be a miserable saec if I
didn't. I didn't win that case. The
big point, the one that turned the tide
for us was made by Edna Ferris!"
Then he told all she had done.

Carr, dumfounded, observed that he
would like to lay eyes on that girl.

"You have," answered the young
man.

"Not that smart little typist?" Erskine
nodded. "Well she can come in
to this office just as soon as she
wishes. We need her la or business."

French Woman Farmers.

Among the war recompenses that
will be handed down with greatest
pride from generation to generation in
French families are the diplomas, now
framed and hanging on the walls of
many a farmhouse attesting how the
peasant woman and farmers' wives,
widows and daughters overcame war
difficulties.

The actual cash returns will equal a
record year in time of peace, though,
excepting oats and potatoes, the yield
was below the average.

This country of Brie, which is gen-
erally second only to the Beauce in
wheat production and first of all for
oats, stands at the head of both, yet
this crop was sown almost entirely
by women, girls and boys too young
or men too old to shoulder the rifle.

German prisoners of war, volunteers
from the camps of interned civilian
Australians and Germans, a few ter-
ritorialists on leave, a good many Parisian
schoolboys and, last, but not least, the
American self-blinder, helped with the
harvest; but with the exception of
the self-blinder, the help was available
only in scattered spots.

That's Different.
"What's the matter with me, doctor?"

"You have a stitch in the back."

"Dear me, that is so prosaic. I can't
tell my stylish friends that. They
would laugh at me."

"But," objected Edna, "he'll find
out."

"Not if you will help me. Just call

FORGET DATE HAS CHANGED

That So Many Forgot to Write "1917"
Proves That Man Is Creature
of Habit.

"That man is a creature of habit,"

remarked the secretary of a large busi-
ness firm, "is amply demonstrated by
the letters we receive. This letter
which I hold in my hand contains an
error generally made at this time of
the year, not because the writers are
careless but because they have culti-
vated the habit of writing a certain
thing mechanically.

"During the life of the year now ex-
pected the writers had grown accus-
tomed to putting down the numerals
1916. Doubtless at first it required of-
fort on their part to bear in mind that
the last figure of the set was 6 and not
5, but after a time the writing of 6
became a mechanical act. It became second
nature for them to write the date cor-
rectly.

"With the birth of a new year, how-
ever, the mechanical writers must ex-
ert mental effort. When they don't
they err. Take this case, for instance.
You see the writer has turned out
what he considers a perfect letter. He
probably reread it and sealed it satis-
fied that it was correct. But he never
thought to look at the date, at least
the year part of it. The result is that
Instead of dating it January, 1917, he
has dated it January, 1916. Just a
mechanical error, that's all."

"A peculiar phase of the matter is
that the error is usually made by per-
sons who write their own correspon-
dence, especially in long hand. Stenog-
raphers who are paid to write the cor-
respondence of others on typewriters
have developed the habit of being ac-
curate."

PUT BLAME ON BERRY JUICE

Old Seadogs Seemingly Vindicated
When the Boat Was Given Tem-
perance Christening.

When fourteen-year-old Myrtle
Kudson smashed a bottle of logan-
berry juice against the stem of the
four-masted auxiliary schooner Alpha,
first of the "built-in-Portland" fleet,
she caused a lot of old seadogs to shake
their heads with misgiving, but signalized
a victory for the W. C. T. U. Pleas that champagne be used, accord-
ing to time-honored custom, availed
not, but a moment later the seafarers
were saying, "I told you so," and few
there were who could gainsay them.

The Alpha started sliding down the
ways toward the river, when suddenly
there was a grating noise and the ves-
sel came to a dead stop, stuck tight
and every effort on the part of the
engineers availed nothing. The old
seadogs wouldn't blame the ways. They
insist it was all the fault of the logan-
berry juice.—*Spokane Spokesman-Review*.

To Protect Moose.

The secretary of agriculture at
Washington has issued the following
amendment to the regulations for the
protection of game in Alaska, with the
object of protecting moose and moun-
tain sheep on the Kenai peninsula and
adjoining region in Alaska, the New
York Herald says:

"The sale of carcasses or parts
thereof of moose and sheep in the re-
gion south of latitude 62 degrees north
and between longitude 141 degrees west
and the western outlet of Lake Clark,
in longitude 155 degrees west, or the
shipment of carcasses or parts thereof
of said animals for sale from Anchorage,
Seward or other points on the Kenai
peninsula, is hereby prohibited until
October 1, 1918, and no carcasses
or parts thereof of said animals shall
be accepted for shipment to other
points in Alaska unless accompanied
by affidavit of the owner that they
were not purchased and are not in-
tended for sale."

That Broad Expanse.

"I tell you, gentlemen," said the
great explorer to the crowd in the hotel
smoking room, who were listening
breathlessly, "you can't imagine what
things are like out in the Arctic re-
gions."

"Oh, I don't know," said one. "Even
if we haven't seen it, we can imagine
what it feels like."

"I doubt it. It's impossible until
you've seen it; until you've stood
there, a small, insignificant atom, sur-
rounded by vast stretches of white."</

Rheumatism

Is My Weather Prophet.

I can tell stormy weather days off by the twinges in my shoulders and knees. But here's an old friend that soon drives out the pain and aches.

Sloan's Liniment is so easy to apply, no rubbing at all, it sinks right in and fixes the pain. Cleanest than many plasters and ointments. Try it for gout, lumbago, neuralgia, bruises and sprains.

At your druggist, 25c, 50c, and \$1.00.

Sloan's Liniment

KILLS PAIN

BECKHAM'S WET VOTE.

When Senator Beckham votes against an act of Federal legislation making every state that is a state-wide "bone dry," he takes perfectly reasonable position, and one that will do more to advance the cause of temperance than to retard it. Whenever legislation is adopted before there is sufficient public sentiment to justify it, an immediate reaction follows, and the benefits of moderate legislation, indorsed by public sentiment is lost. It does not require any eulogy of Senator Beckham to prove his devotion to the temperance cause of Kentucky, for not an important liquor legislation law has been adopted without his active support and leadership. His vote last week was entirely consistent with that devotion. Any other position would have imperiled the adoption of state-wide prohibition in Kentucky.—Elizabethtown News.

Again and again it has been proven that it pays to sow.

FIGHT AT MANNINGTON

In Which Otho Sizemore Is Perhaps Fatally Shot By Robt. Moore.

Robert Moore shot and seriously wounded Otho Sizemore at Mannington Friday evening. Sizemore, it is said, had struck Jack Dunning over the head with a stick. The fight was probably a result of the effort to unionize the coal mines in the vicinity of Mannington, where the trouble occurred. At a speaking a few nights before a clash was narrowly averted.

Sizemore is about 32 years old and was shot four times. Two bullets struck him in one side, one went through his arm and the other through the hand. The wounds in his side are the dangerous ones, but he is said to be still alive, with a chance to recover.

Moore came to this city and surrendered and is in jail awaiting the result of Sizemore's wounds.

The March American Magazine.

Good fiction and a number of powerful articles are the leading features of the March American Magazine. One of the articles is by J. Ogden Armour, who writes on "Armour Men Who Got Ahead—and Why," "Another American Achieves the Impossible," by Walter V. Woehlke, describes the work of Daniel C. Jackling the Utah mining colossus, who has doubled the world's supply of copper and saved electrical industries from serious embarrassment. Others are "Do You Eat Enough Roughage?" by Dr. Arthur R. Reynolds; "The Pope and the Lone Crusade," an interview with Benedict XV by George Barr Baker; "Preventing Men From Becoming Misfits," by Merle Clegg; "A Good Apple," by David Grayson; "How It Feels to be Thirty," and an article by Annette Kellerman, who tells how she attained her perfect physique against great odds as she was a cripple in her girlhood.

The fiction includes "Robinson's Trouseau," H. C. Witwer; "The Unknown Goddess," by Wm. Almon Wolff; "The Village Orator," by Leatt Ashley Knight; "The Destiny of Dan VI," a dog story, by Samuel A. Dericus; "Cinderella Jane," by Marjorie Benton Cooke and "Sadie's Opportunity," by Anne Cameron.

"Sid" tells when it is better to be a bore than to making yourself too interesting.

There is a great deal of useful matter in "Getting Ahead" and the Family's Money." "Interesting People," includes sketches of O. P. and M. J. Van Swerington the Cleveland real estate geniuses, Simon Bamberger, the Governor of Utah, Katherine Stinson, girl aviator, who has instructed one hundred of England's flyers, and Earl Carroll, the composer.

The prize letters in the contest entitled "The Greatest Hero" are published. This number of the American Magazine is excellent.

Mrs. Alpha Coleman, the oldest woman in Trigg county, died Tuesday, aged 93.

THIRD MEMBER OF ONE FAMILY

Mrs. Tyler Hill Died In This City Of Pneumonia Saturday.

Mrs. Elizabeth Sloane Hill, aged 25, died at her home in this city Saturday, of pneumonia following measles. She had been ill 21 days. Two of her brothers, Vance and William Sloane, died last week at their home northeast of town, of the same disease. Mrs. Hill was the wife of Tyler Hill, a son of W. H. Hill. The burial was at Wolfe's Chapel Sunday

TWO DIE OF WOUNDS

Postmaster Bartley and Ralph Ratliff Succumb in Jenkins Hospital.

Whitesburg, Ky., Feb. 26—Postmaster Patton Bartley and Ralph Ratliff, who were shot at Hellier Saturday night, died in Jenkins Hospital at Jenkins of their wounds. Jay Branham shot Ratliff as a result of a quarrel and fled. Later Postmaster Bartley accompanied officers who went for Branham and was mortally wounded, in a fight in which Branham was killed. Bartley had been postmaster several years and was a well-known official. Bartley leaves a bride of a few weeks.

HIGHWAY CONVENTION.

Madisonville, Ky., Feb. 23.—A meeting of the advocates of the central route of the proposed federal highway was held at Dawson Springs today and representatives from Hopkins, Muhlenberg, Caldwell, Lyon, Grayson, Ohio, McCracken, Livingston, Marshall, Union, Crittenden, Henderson, Webster and Daviess counties were expected to be present. Plans for putting forth the advantages of the central over the southern route, as originally selected, were formulated and a big delegation from these counties will go to Frankfort on March 1 to present the claims before the sinking fund commissioners.

Governor Called Down.

The West Virginia House of Delegates has adopted a resolution declining to entertain a supplemental communication from Gov. Hatfield. The resolution also charged that a special communication from the Governor was "disrespectful in its character and discourteous in its language."

FUNSTON BURIED.

The body of Maj. Gen. Frederick Funston was interred in the national cemetery at the Presidio at San Francisco. The services were read in a driving rain. The great Presidio guns boomed out thirteen times as a last salute.

Anticipating the passage by congress of legislation to finance President Wilson's proposed nation-wide investigation into the high cost of foodstuffs, the federal trade commission is completing plans to launch the inquiry as soon as funds are authorized. An amendment to provide \$400,000 for the work was attached to the sundry civil bill by the house as a committee of the whole, and the administration hopes to see it included in the bill as finally enacted.

KICK FATAL.

Hazel, Ky., Feb. 16.—O. G. Alderson, Jr., four year old son of Mr. and Mrs. O. G. Alderson of Martin's Chapel, was kicked to death by a mule last week. He wandered down to the lot and when found by his mother his face had been kicked, the skull being fractured and the nose broken. Life was not extinct but efforts to save his life at the Murray surgical hospital failed.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Toledo, O. We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by his firm.

NATIONAL BANK OF COMMERCE,

RADIUM USED ON CANCER PATIENT

Dr. Wallace Frank Applies It At Cost of \$2,500 to Make Test of Efficacy.

The first and only treatment ever known in Louisville for cancer with radium has been given at the Louisville City Hospital at a cost of \$2,500 to the attending physician. The patient is Mrs. Monica Weisenberger, sixty-five years old, who has been in the Hospital three weeks, and has been a sufferer with cancer for two years.

A small silver vial containing twenty-five milligrams valued at \$100 per milligram, has been "planted" on the growth of the cancer. Mrs. Weisenberger is the patient of Dr. Wallace Frank, staff physician, and Dr. H. H. Reeder, interne at the Hospital. The radium was furnished by Dr. Frank and is one of the only three vials in Louisville.

It has never been fully established that the treatment of cancer with radium is successful. It is known, however, that it "relieves the symptoms of cancer for several years, and returns the patient to practically normal health."—Louisville Post.

WAR AND WOOL.

(From Washington Woolen Mills Bulletin.)

The all controlling influence of war continues.

The inevitable has, of course, happened. The attempt to subtract three from two in the wool supply of the world has brought its answer in minus one.

The wool clip of 1916 sold for 60 to 65c per scoured pound, but the fleece on the sheep now running around in the snow of our wool growing States has been sold to dealers under contract to be delivered next June on the scoured basis of \$1.00 per pound or more.

The United States uses 600,000,000 pounds of wool per annum. The clip of the United States has decreased in five years from 325,000,000, to 288,000,000 pounds. The clips of Australia, Argentina and New Zealand have decreased, the clip of all the countries at War has almost disappeared; twenty million men at War use five to ten times as much wool as usual, and can't exist without it. And there is no substitute.

If the War continues for even one more year, it will not be a question of price, but of wool at any price, and there is always the possibility of this country being forced to actual preparedness, which would necessitate taking for the army such wool as is now in the mills for their general trade.

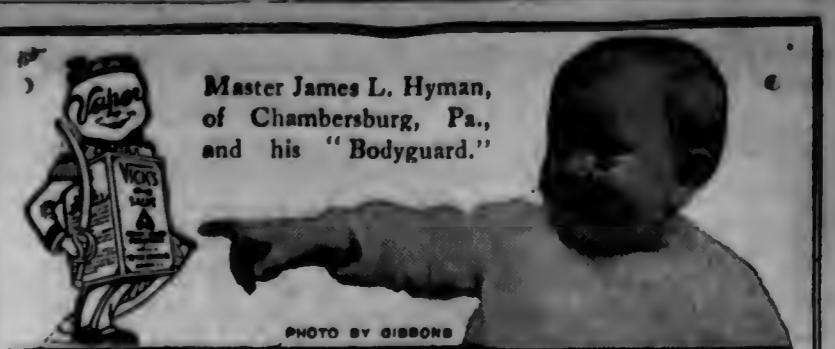

England has an embargo on wool from home and all her colonies. We are dependent on South America for more than half our supply, and must bid against the necessity of War for every pound we get.

So long as the War continues, clothing must climb in price by leaps and bounds, and what seems outrageously high this season, appears a lost opportunity next season.

The question naturally arises: Suppose the War should end? We know it must end sometime, and God grants that it may be soon, but whenever it ends the following facts must prevail:

1st. The world will have no reserve supply of wool.

2nd. All the world (except possibly the United States) will have bare

Master James L. Hyman, of Chambersburg, Pa., and his "Bodyguard."

PHOTO BY GIBSONS

This Little Chap Is Never "Dosed" For Colds.

The Hymans Now Use the "External" Treatment for Croup and Cold Troubles.

MR. PAUL S. HYMAN, of 438 E. Washington Street, Chambersburg, Pa., is the father of this fine baby boy. Sometime ago Mr. Hyman tried the Southern method of treating colds externally—Vick's VapoRub Salve, and was so delighted with the results that he has given us permission to reprint his letter as follows:

"I had a very bad cold on my chest, and coughed very hard. I rubbed Vick's VapoRub on my chest for about five or six times and the results were wonderful. Also, I have a fifteen months old baby boy who had a very bad cold in his head. My wife simply

rubbed some on his nose and forehead, and the cold was loosened in no time at all. We have used a great many other remedies, but yours is best so far."

Vick's VapoRub is quicker and better than internal medicines for cold troubles and is particularly recommended for children, as it does not disturb their digestion.

The heat of the body releases a soothing pine tar vapor that is inhaled with each breath, and, in addition, VapoRub absorbs thru the skin, taking out the tightness and soreness. Mothers will find it a "true Bodyguard for the home." Three sizes, 25c, 50c or \$1.00.

Keep a little Body-Guard in YOUR home!

VICK'S VAPORUB SALVE

counters.

3rd. The countries now at war will begin their renaissance.

4th. A large part of twenty million men must discard their tattered, vermin infested uniforms for civilians' clothes.

5th. England, France, Germany, Austria and Belgium will leap at each other's throats in the greatest Commercial War of history to recover the markets of the world and the gold that has been drained from them.

6th. The demand for raw wool and cotton will be insatiable, because it takes nearly as much raw stock to start up a mill as it normally buys in six months.

7th. After an armistice is agreed upon, it will take surely two months to appoint the Peace Commissioners from all the countries at War and get them to a central meeting place. After they meet, six months would be a short time in which to agree upon the details involved in the boundaries of all the countries at War, to say nothing of indemnities and guarantees of future peace.

8th. No man can return to the factory until every thing is definitely settled, but every factory owner will seek raw materials at any price.

Our deductions from the foregoing are:

1st. That no matter how high wool and cotton sell during the War, they will sell much higher during the year following an armistice.

2nd. That it will be more than six months after fighting ceases before quantities of cloth could be landed here, and, consequently, at least a year before clothing from same could reach the consumer.

3rd. That this gives the merchant at least a full year after an armistice is reached in which to liquidate, during which time wool and cotton will sell at the highest prices ever known, and provide a situation in which stocks can be liquidated at a profit.

Fault-Finder's Folly. He who seeks only for faults sees nothing else, and will be so fully conscious of the faults of others that he will be at fault himself.

AND liveable chicks come only from vigorous, virile cocks and strong healthy hens. Tone the system, strengthen the productive organs of your breeding stock. Mix Conkey's Poultry Tonic in their daily mash or feed. You'll have hatchable eggs and sturdy healthy chicks. Good for all your birds every day in the year. Just good, natural tonic, a 1/2 lb. bag, \$1.25. Boxes, 25c, 50c.

Conkey's Roup Remedy in the drinking water keeps deadly contagious roup out of your flock. Sick birds doctor themselves without fuss or bother. 25c, 50c.

Conkey's Remedies must satisfy you or your money back QUICK.

Cold Sores and Fever Blisters

are only outward manifestations of the inflammation of the mucous surface that lines the lungs, the stomach and all the digestive tract, but they give you evidence of how sore a membrane may become as a result of inflammation, which is stagnation of the blood, rightfully called acute catarrh.

If you suffer from such conditions don't let them become chronic, don't run the risk of systemic catarrh.

Clear it Up With PERUNA

When your system is cleared of all its poisons, the membranes soothed and healed, the cold gone and your digestion restored, you will enjoy life, feel equal to all its tasks, and be at peace with the world. Let Peruna do for you what it did for this sufferer:

Mrs. L. A. Patterson, 238 Utah Avenue, Memphis, Tenn. says:

"I have been a friend of Peruna for many years. I have used it off and on for catarrhal complaints and found it a very excellent remedy. I have a small family of children. Times are hard with us, but I can scarcely afford to do without Peruna, especially during the season of the year when coughs and colds are prevalent. We always recommend Peruna to our neighbors, for the benefit it has been to us."

You needn't suffer longer with such a remedy at hand.

Peruna can be obtained in tablet form. You can carry it with you and take it systematically and regularly for a remedy, or as needed for a preventive. Get a box today.

The Peruna Company, Columbus, Ohio

PURELY PERSONAL

MARRIAGES.

Scott-Oliver.

Felix Scott, aged 23, of Princeton, and Miss Tylene Oliver, aged 20, of Wallonia, obtained license to wed yesterday and the ceremony was performed at a local hotel.

Rogers-Cisney.

Albert Rogers, aged 29, and Miss May Cisney, aged 21, both of Christian county, were granted marriage license yesterday. The wedding was scheduled to take place at the bride's home near Carl, last night, with Rev. T. T. Powell officiating.

Wells-Allen.

Lum Wells and Miss Eula Allen, a young couple from Haley's Mill, in this county, eloped to Clarksville and were married Sunday at the court house, by Rev. W. L. Earl.

Elliot-Mallory.

Mr. and Mrs. Thomas H. Elliott, Jr., who were married in Franklin, Tenn., on Thursday afternoon, have gone to their home at Lafayette, Ky., where they will make their residence with the groom's grandfather, Mr. T. H. Elliott. The wedding took place at the home of the bride's parents, Mr. and Mrs. J. W. McFadden. The bride was Miss Willie James Mallory. She was graduated from Randolph-Macon College and later studied in New York. Mr. Elliott was the valedictorian at Vanderbilt University when he was graduated in 1915, and later studied in New York at Columbia University.

The Test

By GEORGE ELMER COBB

(Copyright, 1917, by W. G. Chapman.)

When Wayne Talcott announced to his Uncle Hiram Lee that he was going to marry pretty Vera Daggett, and go to the city to get a position and start in with no capital except hope, ambition and mutual love, the old man scoffed.

"Take your own course, independent of me," remarked Mr. Lee tersely. "I'll not encourage a nephew of mine to marry on nothing, nor a young chit of a girl, who has not got beyond the stage of impractical dreams and extravagant ideas."

"But, uncle—" remonstrated Wayne. "Not a word! You have my ultimatum."

And forthwith Wayne eloped with Vera and they settled down to wedded life in one room in the city. A month went by; no work, their little capital was exhausted. Wayne wrote to his uncle asking his indulgence. A terse response was awarded: "I have given my instructions to my lawyer, Richard Dawes, Union building."

"But how did you manage to live?" asked Uncle Hiram in a self-condemnatory way.

"Well, I worked evenings shaving the miners down at their camp," explained Wayne.

"My nephew a barber!" growled the shocked Mr. Lee.

"And I washed their clothes," added Vera, and she showed her pretty brown hands with pride.

"A relative of mine a washerwoman!" groaned Uncle Hiram. "You dear!" and he kissed the pretty brown hands in question in turn. "I'm going to confess," he added. "Young lady, I have misjudged you, but, as it has turned out, that wasn't a bad start. Just after you became engaged to Wayne I heard a conversation you held with a girl friend, who repeated it. The outfit you had for your high social life after marriage was dazzling. It convinced me that you were a thoughtless, extravagant—"

"Here! Here!" challenged Wayne uproariously.

"Wait till the last installment, young man, and see how it all worked out.

When you two eloped, I saw that if you didn't start out right you'd run into a switch. Now, then, you showed

sense, you made good. I'm proud of

my beautiful and dutiful niece-in-law, and—I say, my dear, it was a bungalow you planned out so gayly, wasn't it?"

"Oh, Uncle Hiram, that was just a foolish girl's fond dream!"

"Visions come true," pronounced Mr. Lee smugly. "There was a white pergola, and a screened porch, and—oh, you opulent dreamer!—an automobile."

"You'll make her cry if you keep on," warned Wayne.

"She'll laugh afterwards," predicted Uncle Hiram gayly. "Very well, look at that."

He extended a photograph. It was

that of an exquisite little home, a bungalow. And there was a pergola, and an automobile stood in the garden roadway.

"We'll go and see it tomorrow," announced Uncle Hiram. "I had my lawyer purchase it last week. Yours," he added to Vera.

"Mine!" she uttered breathlessly.

"And you can have your washing done, and my nephew may discontinue his barbarous proclivities, and—"

But Vera's arms were about his neck, and her kisses silenced the further explanation of the good old fellow, who had given them their heart's desire.

Clyde, Ky.—Mrs. I. A. Decker: "I recommend Cardui. It's a woman's tonic, to any woman in need of a remedy. For five years, I was unable to do my own work. Half my time was spent in bed. At last I tried Cardui. Now I am well and happy, and can do my own work." Don't suff'r pain, headache, backache, and other womanly miseries, when your own druggist has on his shelf a remedy for such troubles—Cardui. Get a bottle for yourself. As a general tonic, for weak women, nothing has been found for 50 years that would take its place. Try it, it will help you.—Advertisement.

Make-Believe of Flowers.

Cyclamen like to pretend they are cross little animals with their ears laid back; or else that they are little fugitive maidens fleeing very fast across the meadows, with their hair blown back from their lovely faces. Their whimsical trick of play-acting like this is all a part of their quaint mirth. They have, of course, other attributes as well—beauty, and spirituality, and love. Love I feel with flowers particularly. I seem to get hold of that exquisite sense of the whole world's being wrapped in the essence of God's love more often through flowers than through anything else. They are to me indescribably dear merry little companions. My affection goes out to them constantly in a deep, happy reverence. The reverence is not only for the lovely little things themselves, but also for the wonder that is back of them—an ecstasy of worship.—Atlanta.

Itch! Itch! Itch! Scratch! Scratch! Scratch! The more you scratch, the worse you itch. Try Doan's Ointment. For eczema, any skin itching. 50c a box.—Advertisement.

The Dog's Ancestors.

According to Charles R. Eastman, writing in the Museum Journal, our modern dogs have a varied ancestry, some being descended from Asiatic and some from African species. The spitz in all its varieties is a domesticated Juka. The mastiff and St. Bernard and their kind are descended through the molossus of the Romans from a huge wolf-like creature that was already domesticated by the Assyrian Babylonians 3,000 years before our era. The Russian borzoi and the Sicilian hound had their origin in the Cretan hound, which is still common in Crete, and it and its cousin, the Ibiza hound of the Balearic Islands, came from the ancient Ethiopean hound, which was a domesticated wolf. The collie or shepherd dog seems to come down direct from a small wild dog of the paleolithic period.

Women's Ways.

"I have nothing to say," says an indignant woman today, and then she takes her head off. These women!—Atchison Globe.

NOW DANCE IN BIG HOTELS

"Society" No Longer Bothers to Take Trouble Which the Giving of a Ball Entails on Hostess.

Where social pleasure reigns and day after day is given to entertainment, in such surroundings "only the trouble of living" is left to disturb the equanimity of the pleasure-seekers. The social correspondent of newspaper in a large American city, writing of balls and ball-giving, says: "It is a most convenient way to give a ball at an hotel, now that so many people live in the country the greater part of the winter. The guests can defy the elements, blizzards and cyclones alike. They motor to town in the morning and take their time to get their hair dressed, their face massaged and their hands manicured. Their dainty person once thoroughly attended to, after lunching at a friend's and getting in full dancing trim they give a dinner party at the hotel, go to the opera or hear 'Siegfried'—the soothing music of which induces cat-naps of beauty sleep while the lights are down—the acts are long you know, and there are four of them in 'Siegfried'! So they arrive freshened up for the ball about midnight. It is all so easy. No hustling about anything only the trouble of living. No anxiety as to everything being in good shape. If it is not—sometimes it is not, you know—well, it is not your affair. Your guests blame it on the house, and you do, too."

Sloan's Liniment Eases Pain.

Sloan's Liniment is first thought of mothers for bumps, bruises and sprains that are continually happening to children. It quickly penetrates and soothes without rubbing. Cleaner and more effective than musely plasters or ointments. For rheumatic aches, neuralgia pain and that grumpy soreness after colds, Sloan's Liniment gives prompt relief. Have bottle handy for bruises, strains, sprains and all external pain. For the thousands whose work calls them outdoors, the pains and aches following exposure are relieved by Sloan's Liniment. At all Druggists, 25c.—Advertisement.

The Orange in Spain.

It is considered a very healthful thing to eat an orange before breakfast. But who can eat an orange well? One must go to Spain to see that done. The señorita cuts off the rind with her silver knife; then, putting her fork into the peeled fruit, she detaches every morsel with her pearly teeth and continues to eat the orange without losing a drop of the juice and lays down the core with the fork still in it.—Ex-change.

Accidents will happen, but the best regulated families keep Dr. Thomas' Electric oil for such emergencies. Two sizes 25c and 50c at all stores.—Advertisement.

Canvas Tubing.

More or less inconvenience always has accompanied the use of the tin duct, in supplying ventilation to miners and other underground workers. Because of these facts, a manufacturer of canvas bags has set about making canvas tubing, which is meeting with favor where it has been tested. The canvas tube is easily mended when punctured, and is also easily moved.

If You Want The best Separator that is built, buy a Dairymaid.

THERE IS MORE PROFIT IN YOUR DAIRY

than you ever realized unless you are using a Dairymaid cream separator. The Dairymaid is the only successful chain drive machine on the American market today. The chain drive causes that smooth, vibrationless movement of the bowl which helps give the Dairymaid its close skimming qualities.

The oiling facilities of the machine are excellent. Every part of the mechanism, except the bowl spindle neck bearing, is oiled from an oil bath in which the gears revolve. The neck bearing is self-aligning, non-adjustable, and trouble proof.

If you have been skimming by the old gravity method, or selling your milk, it is time to look for a bigger profit in your dairy.

When examining the Dairymaid separator notice these features:

Chain drive, eliminating vibration.
Power driven at the base.
Six-piece frame.
Efficient disk skimming device.
Phosphor bronze bearings at all wearing points.
Splash lubrication from oil bath.
Trouble-proof bowl spindle neck bearings.

THE HOPKINSVILLE KENTUCKIAN, Hopkinsville, Kentucky

THE KENTUCKIAN FOR 1917

EVER since the year 1868, the **HOPKINSVILLE KENTUCKIAN** has been published under one name or another. In 1879 the present name was given and the present management took charge of the paper, which is now in its 39th volume. For almost 40 years it has been a faithful exponent of the growth and development of the city and county. It has written in its files a history of the county covering that long period. It has recorded the birth of three generations in some instances. It has seen the small town develop into a prosperous city with its people ever looking forward to greater things.

During all these years it has had a loyal and constant patronage from the best people of the county. It has many subscribers whose names have not been off its subscription lists in 39 years. In many other families, sons have taken their father's places. We would be ungrateful not to appreciate support like this, but we have never come to the reading public with a stronger appeal for patronage than this year. Conditions have greatly changed and paper stock is three times as high as a year ago.

Many newspapers have advanced rates but in order that the circulation may not be lessened by a higher price the **KENTUCKIAN** will still be sent for \$2.00 a year, the old price. It will be necessary though to adhere rigidly to the cash system, since more than \$1.00 must be paid in advance for the paper upon which we print 156 papers and the cost of printing leaves but little profit out of the second dollar. We are asking our old subscribers to stand by us in this crisis by renewing promptly.

All papers not paid for will be stopped.
Don't Let Yours Stop.

The Price Will be the same \$2.00 a Year
as heretofore,

Hopkinsville Kentuckian

FINALLY OVERTAKEN BY FATE

Neat Comment Made by Brother Officer When Informed of Illness of Well-Known Loot.

Lieut. Ben L. Maloney, who is a well-known figure on auto row and who directed a government motor-truck company in Texas last summer, tells a story of the famous Chinese Boxer campaign.

"A certain officer in the American forces failed to preserve the high reputation of his corps in the matter of looting," said Lieutenant Maloney. "Whereas most American soldiers earned the respect and gratitude of the Chinese by the way in which they refrained from robbing the natives, this one officer vied with the Europeans in gathering loot. He was especially partial to ancient brass and bronze vases and jars, which in this country would be of incalculable value, and he literally grabbed up every such curio he could lay his hands on.

"One day the star looter of the Yankee contingent fell ill and was sent to the field hospital. Two fellow officers were discussing his case.

"What's the matter with Captain?" inquired one.

"Oh, suppose he's finally fallen a victim to verdigris poisoning," said the other.

Neglected Colds Grow Worse.

A cough that rakes and irritates the throat may lead to a serious chronic cough, if neglected. The healing pine balsams in Dr. Ben's Pine Tar Hohey—Nature's own remedy—will soothe and relieve the irritation, breathing will be easier, and the antiseptic properties will kill the germ which retarded healing. Have it handy for croup, sore throat and chronic bronchial affections. Get a bottle today. Pleasant to take. At all Druggists, 25c.—Advertisement

PROBLEM YET TO BE SOLVED

Housing of City's Population Calls for the Best Thought That Can Be Called Upon.

That housing the people still lacks facts to make it a science was shown in a late discussion by Prof. S. M. Gunn of the Massachusetts Institute of Technology. Among the recently acquired bits of knowledge is that consumption is not a house disease, as even Koch—the discoverer of its active agent—thought, but is one that is transmitted by the sick man himself. Infant disease, too, is not due to the house, chief causes being ignorance of the parents, economic conditions and racial factors. Considerations of sunlight and ventilation complicate the problem of housing reform. Long exposure to sunlight has effected cures, but just what is its special influence in homes is yet to be made known. Professor Gunn is inclined to credit it with psychological value, as the well-lit house offers such health factors as cheerfulness, absence of dirt and inspiration to effort. The actual value of outdoor air is a matter of like uncertainty. Fresh air is best for man when it can be had, but experiments have shown that there is not the real danger in breathed-over air we were once taught. In crowded factory districts, where the supply of outdoor air is restricted, feelings of oppression may be prevented by such measures as controlling circulation, temperature and humidity. In the control of winter heating, education is needed. Houses are notoriously overheated and the air from furnaces is not properly fed with moisture. With air dampened without taking its moisture from the human body and the furniture, comfort is reached at a lower temperature than with dry air, cool being saved.

Harsh physics react, weaken the bowels, will lead to chronic constipation. Doan's Regulets operate easily. 25c a box at all stores.—Advertisement

AT TABERNACLE FRIDAY NIGHT

The New York Metropolitan Company will appear at the Tabernacle in this city next Friday night, March 2, when a very delightful program will be rendered. The South Bend, Ind., Journal of recent date says:

"Axel Skovgaard, known to the musical world as 'The Danish Violinist,' was the principal member of the company. The fact that his hands are insured for \$50,000 and that he plays a genuine Stradivarius violin valued at \$13,000, is enough in itself to make him a distinguished personality, but in addition to these he is really a master musician."

Another member of the company whose voice endeared her to the people of South Bend and Raymond, was Mary Maiben Allen. Miss Allen has a contralto voice of splendid quality and of wonderful range. Another quality which makes her voice delightful is that Miss Allen possesses the rare quality in singers of being able to enunciate her words so that they were very clear and distinct. A number greatly enjoyed was the duet rendered by Miss Allen and Susan Emma Drought, lyric soprano. The selection was the Flower Duet, taken from the charming Oriental opera, "Madame Butterfly" and the young ladies were beautifully gowned in appropriate costumes. Later Miss Allen appeared in place of Aubrey N. Engle, the baritone of the company, who was unable to appear on account of illness. Her rendition of "Oh Dry Those Tears" was especially suited to bring out the sweet tones of her voice. In another number which should have been taken by Mr. Engle, she appeared in concert with Mildred Haynes and they gave "Oh, Nights of Love" from "The Tales of Hoffman."

KNOTT AND M'KENZIE

Statesmen Who Were Practical Jokers, Like Overgrown Boys.

The Courier-Journal contains this reference to two of the best known Kentucky statesmen of 30 years ago: "Gov. Proctor Knott's story-telling was one of the least of his accomplishments. He was a poet, a scholar, something of a sculptor, and he made very good free-hand cartoons on current topics. In this connection is recalled the lively passage at arms through the public prints between Judge Milton J. Durham, of Danville, Controller of the Treasury under the first Cleveland administration, and Gov. Knott.

Judge Durham had written a letter to a friend in Kentucky bemoaning the fact that the old Commonwealth had fallen into a rut, and was in danger of going to the demotion howwows, and expressing the hope that some leader could be found who would put new life into the old State. Gov. Knott resented this statement, and wrote a red-hot reply, scathing in denunciation, keen in sarcasm and abounding in wit. The passages at arms are matters of public record. Not so as to a drawing by Gov. Knott, which was kept for many years on file in the archives of the "kitchen cabinet."

This drawing contained a good likeness of the Controller, standing half way between the White House and the Kentucky capitol, and men with ropes both in Washington and Frankfort, attached to the Controller, and giving a mighty tug. Underneath in the Governor's handwriting was the quotation:

"How happy I'd be with either, were 'tother dear charmer away."

Secretary of State McKenzie was no slouch himself with a pencil. Gov. Knott surprised the Secretary of State one day while he was in the very act of drawing a cartoon. It was the picture of a donkey looking into a miniature lake on which a number of ducks were swimming. The Secretary of State had written under it: "Proctor Knott fishing for ducks." The Governor took the paper and with a few strokes of the pencil made a fairly good likeness of himself with a pole and line extended lakeward. Then he wrote: "And his friend, Jim McKenzie, looking on."

Ordinance Held Void.

The Appellate Court held that the ordinance passed by the City of Hopkinsville, imposing a license tax on dealers of tobacco in that city, is valid. The suit was brought by the Tandy & Fairleigh Tobacco Company to declare the ordinance invalid, as it is claimed unconstitutional. The court holds, however, that it meets the requirements of the constitution and the statutes. The ordinance imposes a license tax of from \$25 to \$50 for dealers of tobacco in Hopkinsville.

Victim of Tuberculosis.

Letitia Vaulloosier, aged 41 years, died at the Western State Hospital Saturday of tuberculosis. She was from this county and was received at the hospital about two weeks ago. The interment took place near Cerulean Sunday.

Hearings begun yesterday by the Legislature will be continued until Wednesday. Representatives of fiscal courts and cities today and bankers and other citizens tomorrow are scheduled to appear. By Thursday the general assembly will settle down to actual work on the thirteen revenue bills already introduced.

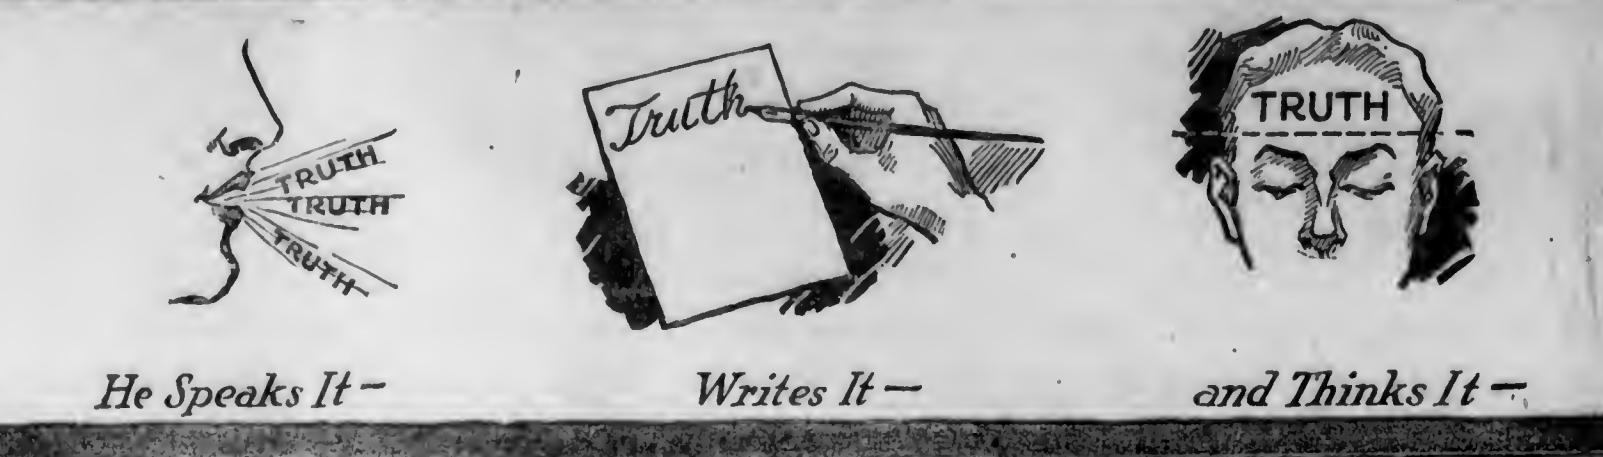

When Clock Gets Out of Order.
If your clock gets out of order, try lubricating the works by the fumes from a piece of wadding soaked in paraffin. Set the wadding inside the case under the works; unless the works are actually out of order the fumes will not get on the machinery. It is quite a simple but tried remedy.

Plant Beds.
The farmers in all sections of the county are now burning and sowing plant beds. From general indications a large acreage will be grown this year.

Mrs. Wallace Dead.

Mrs. Mary I. Wallace, mother of Mr. Alex Wallace, died at Cerulean Saturday.

A Southerner Says It—It's True

It seems somehow that the love of truth is inborn—in every Southerner and it sticks right close to him for all his days—just like a life-long friend!

That's why, friends, when I hear people praising me all over the South—saying "SOVEREIGN is King of Them All"—well, it is true—that's all.

For example, I heard one gentleman say the other day:—"Here is the finest ciga-

You Folks of the South KNOW good blood!
You Folks of the South KNOW good tobacco!

No doubt of it all. Good breeding does count. Quality does tell. So, let's you and me be the real friends that we ought to be. And, here is something more for you to think about—

The American Tobacco Co. —Buy me. I am guaranteed by If you don't like me return me to your dealer and get your money back. I have said it. A Southern gentleman is known the world over for keeping his word, and I have given you mine.

Sovereign Cigarettes

FOR THE GENTLEMAN OF THE SOUTH
"King of Them all"

WHO WAS GEORGE WASHINGTON?

He was the oldest of five children? His army when he first took charge was 14,000 men, 9,000 of them from Massachusetts.

As commander-in-chief of the army he drew \$500 a month.

Of the sixty-nine electoral votes cast for the first president, he got sixty-nine.

He was 57 years old when he entered upon the office of President.

He always had his hair powdered at public receptions and never shook hands with any one at such times.

He was very successful as a raiser of wheat and tobacco, and, in addition, carried on brickyards and fisheries interests.

He was married to Mrs. Martha Curtis Jan. 6, 1759, and for several years they had the simple life on their Mount Vernon estate.

At his inauguration he wore a full suit of fine cloth made by his own servants and the dresses of his wife were also woven on the plantation.

He was 57 years old when Gov. Leavell sent him on a perilous journey to Ohio, and out the strength of the French, which he ac-

complished handily.

At 13 he was the strength marvel of the neighborhood, being abundantly able to outwrestle, outrun, outleap, outrun quoits and outtoss iron bars over any boy of his age in Virginia.—Evansville Courier.

But an advertisement in this paper talks to the whole community.

Catch the Idea!

The March Woman's Home Companion.

In the March Woman's Home Companion Mary Heaton Vorse has a love story entitled "The Great God," an interesting indictment of the lives of many American women of the wealthier class. There are many other good stories and a large number of excellent articles and special features.

"Out of the Shadow of Debt," by an anonymous writer, gives the dramatic personal experience of a young couple in meeting their obligations and shows how debt itself is nothing more than a bad habit which may be broken. In "Scenario Writing" Jasper Ewing Brady explains the requirements for a successful moving picture author and how to attain them. "The Delicate Child," by Roger H. Dennett, M. D., is a sensible, helpful article on how to make such a child well and keep it so. "My Memories," by Louise Homer, is an autobiographical sketch by a great singer whose musical success was won in the United States. There are also articles by Laura Spencer Portor, C. H. Clancy, the automobile expert; Lillian Brewster, Adeline T. Thompson and Charlotte F. Boldtman.

The short stories include "The Message," by Emily Sargent Lewis, "The

Charmer," by Sophie, and "Cry-Baby," by Mabel Dill. Sinclair Lewis completes his novel, "The Innocents."

Fashions are discussed by Grace Margaret Gould, who gives many new ideas for spring costumes. The departments of "Cooking," "Handicraft," and the section for younger readers are valuable and entertaining, and the picture section, both in color and Alco Gravure, completes a decidedly good number.
